CONTENTS

The First Twenty-Five Years 1
Hochmannová J., Nešvera J., Štokrová J.: Visualization of Membrane-Associated R-Plasmid DNA in Fraction of *Escherichia coli* Minicell Lyzate 11
Pavlasová E., Stejskalová E., Novotný Č., Sikyta B.: Effect of Cyclic Adenosine-3′,5′-Monophosphate on the Simultaneous Synthesis of β-Galactosidase and Tryptophanase is *Escherichia coli* 16
Jirků V., Kraxnerová B., Krumphanzl V.: The Extracellular System of β-1,3-Glucanases of *Alternaria tenuissima* and *Aspergillus vesicolor* 24
Beluche I., Guiraud J. P., Galzy P.: Inulinase Activity of *Debaromyces cantarellii* 32
Zahradník F. J.: Streptococcal Extracellular NAD^+ Nucleosidase. Characterization of Changes Occurring during Purification 40
Deschamps A., Plichon B., Noel C.: Transport of Basic Amino Acids and Regulation of Aspartate Kinase Activity in Thialysine and L-Canavanine Resistant Strains of *Serratia marcescens* 50
Kocková-Kratochvílová A., Černáková M., Slávíková E.: Morphological Changes during the Life Cycle of *Aureobasidium pullulans* (de Bary) Arnaud 56
Černáková M., Kocková-Kratochvílová A., Šuty L., Zemek J., Kuniak Ľ.: Biochemical Similarities among Strains of *Aureobasidium pullulans* (de Bary) Arnaud 68
Lodinová R., Haníková M., Jouja V.: Some Cellular Immune Reactions in Infants. MIF, E-Rosette Formation and Changes in Nucleolar Morphology 74
† McLaren A.D.: Nitrification Reactions in a Column of Soil with a Flowing Nutrient Solution . . 86
† Macura J., Stotzky G.: Effect of Montmorillonite and Kaolinite on Nitrification in Soil 90
Kunc F., Stotzky G.: Acceleration by Montmorillonite of Nitrification in Soil 106
† Macura J., Ryšavý P.: Utilization of Glucose and Cellobiose by the Microflora of Soil Enriched with Cellulose 126
Kunc F.: The Priming Effect of Glucose in Soil Sterilized by γ-Radiation and Reinoculated with *Cellulomonas* sp. 133
Novák B.: Effect of Starch and Inorganic Nitrogen on Microbial Transformations of Organic Compounds in Soil 140
Seifert J.: Effect of Temperature on Nitrification Intensity in Soil 144
Mishustin Ye.N., Shemakhanova N.M.: Indirect Methods of Determination of Activity of Root-Nodule Bacteria 148
Škrdleta V., Gaudinová A., Němcová M., Hyndráková A.: Symbiotic Dinitrogen Fixation as Affected by Short-Term Application of Nitrate to Nodulated *Pisum sativum* L. 155
Úlehlová B.: Contents, Accumulation and Release of Energy in Green, Dead and Decomposing Plant Materials in an Upland Grassland near Kameničky, Czechoslovakia 162
Vančura V.: Fluorescent Pseudomonads in the Rhizosphere of Plants and Their Relation to Root Exudates 168
Čatská V.: Effect of Volatile and Gaseous Metabolites of Germinating Pea Seeds on Micromycetes . 174
Čatská V., Vančura V.: Volatile and Gaseous Metabolites Released by Germinating Seeds of Lentil and Maize Cultivars with Different Susceptibilities to Fusariosis and Smut 177
Váchová-Philippová L., Strnadová M., Chaloupka J.: Turnover of Proteins in Asporogenic *Bacillus megaterium*. Evidence for a Gradual Decrease of the Turnover Rate 185
Chaloupka J., Strnadová M.: Degradation and Replenishment of the Labile Protein Fraction in Non-growing Cells of the Asporogenic Mutant of *Bacillus megaterium* 191
Pavlasová E., Stejskalová E., Sikyta B.: Simultaneous Induction of Three Catabolic Enzymes in *Escherichia coli* 201
Blumauerová M., Podojil M., Gauze G.F., Maksimova T.S., Panoš J., Vaněk Z.: Spontaneous Variability of *Streptomyces glomeratus*, a Producer of the Anthracycline Antibiotics Beromycins 207
Blumauerová M., Podojil M., Gauze G.F., Maksimova T.S., Panoš J., Vaněk Z.: Effect of Cultivation Conditions on the Activity of the Beromycin Producer *Streptomyces glomeratus* 3980 and Its Spontaneous Variants 213
Havelková M., Křípalová J.: Karyokinesis in Growing and Reverting Protoplasts of *Schizosaccharomyces pombe* 219
Nečas O., Gabriel M.: Ultrastructure of Spores of *Rhizopus nigricans* after Repeated Freezing and Thawing Shocks 228

Švábová M., Zemek J. Augustín J., Kuniak Ľ., Marvanová L.: Enzyme Apparatus of the Genus *Fusarium* 233
Lívanský K.: Optimization of Costs per Unit of Microbial Biomass Produced in a Batch Culture . 238
Kubín M., Švejcar J., Wisingerová E., Pekárek J., Švandová E., Kubíčková M.: *In vitro* Studies of Cell-Mediated Immunity in Rabbits Sensitized with *Mycobacterium kansasii* and *Mycobacterium tuberculosis* 242
Zikán J.: Interactions of Pig Fabγ Fragments with Protein A from *Staphylococcus aureus* 246
Zikán J.: Interactions of Pig Fabμ and Fabκ Fragments with Protein A from *Staphylococcus aureus* 254
Španová A.: Genetic Mapping of the G101 Bacteriophage (*Pseudomonas aeruginosa*) by Temperature-Sensitive Mutations 281
Přikrylová V., Podojil M., Hilgert I., Fuska J., Vokoun J., Vaněk Z.: Isolation, Characterization and Biological Activities of Verotetrone from a Mutant Strain of *Streptomyces aureofaciens* . . 289
Betina V., Koman V.: Changes in the Lipid Composition during the Photo-Induced Conidiation of *Trichoderma viride* 295
Augustín J., Zemek J., Kuniak Ľ., Kocková-Kratochvílová A.: Mannan-Hydrolyzing Enzymes of Yeasts and Yeast-Like Organisms 301
Wurst M., Sigler K., Knotková A.: Gas Chromatographic Determination of Extracellular Metabolites Produced by Baker's Yeast during Glucose-Induced Acidification 306
Sigler K., Knotková A., Páca J., Wurst M.: Extrusion of Metabolites from Baker's Yeast during Glucose-Induced Acidification 311
Ginterová A., Janotková O., Zemek J., Augustín J., Kuniak Ľ.: Cellulase Activity of Higher Fungi 318
Musílková M., Panoš J., Sedmera P., Fencl Z.: Accumulation of 2-Oxo Acids in Mutants of *Aspergillus niger* Requiring Lysine 324
Chatterjee S.P., Birnbaum D.: Excretion of Peptides by *Rhodosporidium toruloides* 328
Ginterová A., Polster M., Janotková O.: The Relationship between *Pleurotus ostreatus* and *Aspergillus flavus* and the Production of Aflatoxin 332
Ramarao P., Isaac I.: Effect of Foliar Application of Antibiotics and Gibberellic Acid on the Rhizosphere Microflora of Pea, Infected with *Verticillium dahliae* 337
Pelechová J., Smékal F., Koura V., Plachý J., Krumphanzl V.: Biosynthesis of L-Lysine in *Corynebacterium glutamicum* on Sucrose, Ethanol and Acetic Acid 341
Majtán V., Drobnica Ľ.: Dynamics of Growth of Atypical Mycobacteria in Different Liquid Cultivation Media 347
Dlabač V.: Report from a Meeting of the Committee for Standardization of Control of Germfree State 354
Janeček J., Náprstek J., Dobrová Z., Jirešová M., Spížek J.: Characterization of Adenylate Cyclase from *Escherichia coli* 361
Vízdalová M., Janovská E., Zhestyanikov V.D.: The Role of the HCR System in the Repair of Lethal Lesions of *Bacillus subtilis* Phages and Their Transfecting DNA Damaged by Radiation and Alkylating Agents 369
Janovská E., Samoilova K.A., Vízdalová M.: Effectivity of Bacterial Repair Systems in Near UV Radiation-Induced Damage 381
Ebringer L., Bencová M.: Mutagenicity of Nitrofuran Drugs in Bacterial Systems 388
Sam C.T.: Biochemical Changes Accompanying Brefeldin A Formation in *Curvularia lunata* . . . 397
Drobnica Ľ., Majtán V., Šturdík E., Miko M.: Effect of 2,3-Dinitrilo-1,4-dithia-9,10-anthraquinone on *Mycobacterium smegmatis* 403
Foltínová P., Ebringer L., Sutoris V.: Effect of Some Benzthiazol Derivatives on *Euglena gracilis* 412
L'Homme C., Bizeau C., Arthaud J.F., Galzy P.: Design of a Growth Model for Yeast 418
Ettler P., Votruba J.: Determination of the Optimal Feeding Regime during Biosynthesis of Erythromycin 424
Klein P.: Mathematical Models of Antibody Response 430
Janderová B., Kaprálek F., Julák J.: Effect of Glucose on the Biochemical Properties of the Bacterial Cytoplasmic Membrane 457
Podojil M., Blumauerová M., Přikrylová V., Vaněk Z., Gauze G.F., Maksimova T.S.: Production of Rhodomycins in *Streptomyces griseoruber* 4620 464
Drobnica Ľ., Šturdík E.: Antimicrobial Activity of 2-Vinylfuran Derivatives 467
Vraný J., Staněk M., Vančura V.: Rhizosphere Microflora and Colonization of Wheat Roots by *Gaeumannomyces graminis* var. *tritici* after Foliar Application of Urea and Benomyl 476
Šíma P., Malá J., Miler I., Hodr R., Truxová E.: The Suppressive Effect of Continuous Infusion of Bilirubin on the Immune Response in Mice 483
Štěpánková R., Kovářů F., † Kruml J.: Lymphatic Tissue of the Intestinal Tract of Germfree and Conventional Rabbits 491

Brief Reports

Šlosárek M.: Fluorescent Method for Testing the Enzymic Activity of Mycobacteria 439
Říhová B., Koukal M.: Detection of Mouse Ectromelia Virus Using the Heterologous Rabbit Antiserum Conjugated with Fluorescein Isothiocyanate 442

Singh J., Ranganthan B., Chander H.: Effect of Incubation Temperature on Acid Production and Proteolytic Activity in Milk by Selected Lactobacilli Mutants 496
Chakrabarti K., Samajpati N.: Effect of Different Nitrogen Sources on the Yield of Oxalic Acid by *Sclerotium rolfsii* 498
Holan Z., Beran K., Miler I.: Preparation of Zymosan from Yeast Cell Walls 501

Reviews

Muzychenko L.A., Valuev V.I.: Principles of Designing Mathematical Models of Microorganisms 259
Betina V.: The Use of Antibiotics for Studies of Morphogenesis and Differentiation in Microorganisms 505

Discussion

Barabás G.: Investigation of the Biological Role of Antibiotics (Some Problems and Ideas) 270
Hošťálek Z.: Catabolite Regulation of Antibiotic Biosynthesis 445
Ball C.: A Discussion of Microbial Genetics in Fermentation Process Development with Particular Reference to Fungi Producing High Yields of Antibiotics 524
